More choice

When you buy bulkier or fragile items for delivery to your home, or it may not be convenient for you to wait around all day to receive delivery of your order. We now offer a new Royal Mail service which allows you to specify a safe, alternative delivery option – meaning you won't need to arrange for redelivery, or make a special trip to your local delivery office.

Safe first-time delivery

With Safepace™, when you place an order with us you will be able to nominate a 'safe place' as an alternative delivery point. This can be either a secure weather-proof area on your property, or a near neighbor. Your instructions are shown on the address label, so the postman will know where to leave the item if you are not at home when delivery is attempted. He will also leave a P739 ('While you were out' card) informing them where their item has been left.
